

Case Study

PHARMA

Project Data

Product: Sodium chloride solution

Packaging shape: 3-side-sealed sachets
37 x 95 mm each

Film material: PET 12 / Alu 9 / PE 60 µm

Machine type: **FlexiBag Bi 260 twin**
2 lanes with heatsealing

with printer, track & trace,
die cutting,
conveying and grouping system,
and checkweigher

Application: liquid product for
catheter

Capacity/output: 50 strokes/min,
100 sachets/min
6,000 sachets/hour
84 l/hour

Requirements: specific seal
requirements,
corrosion resistant
materials,
DQ, IQ and OQ

No. of machines: 1 unit

delivered: 2013
